

## LIVE ART 2007 at HOLLYWOOD & HIGHLAND CENTER

### What:

Hollywood & Highland Center continues to present artistic, culturally relevant events throughout the year. Live Art 2007 is a one-day art/film/music festival taking place on Sat. Nov. 3rd. It is the culmination of a summer long call for entries thru [www.livelargehere.com](http://www.livelargehere.com). [Livelargehere.com](http://www.livelargehere.com) is a community portal for viewing and sharing creative work from local artists. The best of the best submissions will be invited to play live on the courtyard stage, exhibit and sell their art and photography, and have their films screened in the gallery.

This will be an annual event. [Livelargehere.com](http://www.livelargehere.com) will continue to live after the event as an online gallery and to accept submissions for LIVE ART 2008.

The daylong event will kick off the evening of November 2 from 7:00 to 10:00pm with a Live Art Reception. This pre-opening affair will be an invitation only event.
